Auto Drops off Bridge At Venice; 7 Hurt in One Crash, 4 in Another

Holiday weekend traffic crashes in and near the Quad-Cities numbered 39 with 22 injuries, but no fatal crashes were reported in the area. Nation-wide, fatalities were listed at nearing 575 for the long weekend, a sharp drop from last year's 720 and below the 650-670 prediction by the National Safety Council.

A St. Louis woman whose auto dropped 55 feet after plunging off McKinley Bridge on Monday afternoon at 4:30 a.m. Saturday remains in critical condition at St. Elizabeth Hospital here.

He is Everett J. Lowe, 32, of St. Louis, a Wagner Electric Co. employee, who was westbound when his auto failed to make the turn at the top of the east approach, skidding across the bridge and knocked out three sections of railing before plunging to the fence below.

Venice police said Lowe was wedged in the auto which landed on its right side on the fence, and volunteers from the area called to aid in rescuing the driver from the wreckage. He was taken by ambulance to the hospital for treatment of severe head injuries and facial cuts and fractures to both hands.

The top of the auto was virtually ripped off. The mishap occurred on the east end of the bridge where new railing has not yet been installed.

Police said the Kashinsky car was traveling north and was making a left turn when the right side was struck by an auto driven by Robert Reed, 20, of St. Louis. Reed and four passengers were hurt. They were Harold Wallace, 17, of 2430 Madison avenue, owner of the car; and Brenda Sutherland, 16, JoAnn Sutherland, 14, and Freda Crier, 17, all of St. Louis.

Four young persons suffered minor injuries about 3:30 p.m. Monday in a two-car collision at old Route 66-40 and Route 3.

Given treatment at St. Elizabeth Hospital were the driver of one car, William Ogden, 17, of 3033 Washington avenue, and three passengers, Mary Miller, 15, of 207 Abbott street, Rosemary Daniels, 14, of 531 Jefferson street, both of Venice, and Lila Lafr, 16, of Girard, Ill. The other driver, Stanley Nelson, 34, of Florissant, Mo., was unhurt.

Police Chief Of Troy Is Killed Saturday

Lester M. Johnson, 52, Former Area Resident, Beaten Outside Tavern

Lester M. Johnson, chief of police at Troy and a former Granite City area resident, was fatally injured in a fight outside of a Troy tavern late Saturday.

He was pronounced dead on arrival at St. Joseph's Hospital, Highland.

Held in the Madison county jail on a murder warrant in connection with the death of Joseph Isadore Brendel, 58, of Troy, a laborer on a construction project at the Shell Oil Co. refinery.

Dr. W. B. Billings, Madison county coroner, said Mr. Johnson had been struck on the head with a blunt instrument and the cause of death was acute cerebral hemorrhage as a result of trauma. He added that there were no signs of lacerations on the scalp, but that there had been blows about the head.

The sheriff's office is searching for a possible weapon.

Pontoon Trustee
Mr. Johnson, 52, who was one of the first trustees of the village of Pontoon Beach, was found outside of Lee and Bee's club in an unconscious condition at 11:25 p.m. The tavern formerly was operated by Brendel as the Dugout.

State's Atty. Leon Scroggins said Brendel and Mr. Johnson were involved in a fight over a traffic ticket issued by the police chief to Brendel. He said that when the two met in the tavern Saturday night, the dispute was resumed, and the two went outside to settle the argument.

Scroggins' investigators were searching for the murder weapon in the area of the tavern and have been attempting to locate several customers in the tavern at the time.

Scroggins said statements of witnesses who had read to him by phone before he authorized issuance of the murder warrant against Brendel. Authorities said they had not discussed the case with Brendel who has refused to be interviewed on advice of his attorney.

An inquest is to be conducted by Robert L. Spengel of Highland, deputy coroner, after reports from the sheriff's office are made available.

Revised Standards Probable in Air Pollution Control

A revision of air pollution control standards of the Interstate Air Pollution Study pertaining to the iron and steel industries appeared a probability today as the result of a meeting of air pollution technical experts in East St. Louis this morning.

Lawrence Ross, St. Louis county supervisor and chairman of the East-West Gateway Coordinating Council, asked technical advisers of the industry to study to meet with representatives of the steel industry to see if more selective regulations could be worked out.

Ross' request came after Donald Cairns, president of the Industrial Association of the Midwest, told 100 persons at the meeting that strict compliance with standards of the Interstate Air Study for abatement of particulate matter air pollution would cost the iron and steel industry many additional millions of dollars for only marginal benefits.

\$4 Million Added Costs
Cairns, plant engineer of the blast furnace department of Granite City Steel Co., quoted as one example an abatement requirement of 99.45% by the interstate study as compared to a 99.45% abatement agreed to by the industry. The additional fourth-tenths of one per cent required by the air study standard would add \$4 million, Cairns said.

Similar marginal differences in air standards would cost more millions of only a few tenths of one per cent, Cairns added.

Today's "confidential" meeting was arranged by the Gateway Council after last-minute objections to adoption of a model air pollution control ordinance were Dec. 14 were filed by seven voting members of the council. A memorandum of exception and reservation was signed by the Illinois members of the Gateway Council, and by C. E. Townsend of Granite City, chairman of the B-States Development Agency.

The memorandum pointed out that while the objecting members agreed to all aims and goals of the proposed air pollution control program, there remained the question as to whether some of the abatement standards specified in the ordinance were technically or economically feasible at this time.

Representatives of industry, who have testified on numerous occasions before the council, have urged that the ordinance be adopted as a whole.

Review Board to Do Job Of Equalizing Values If Twp. Assessors Fail

Township tax assessors who fail to equalize property valuations during the 1967 quadrennial reassessment of real estate at 55% of fair cash values will have multipliers applied by the county board of review.

Harold Landolt, chairman of the county board and also chairman of the county's review board, made a pledge last week at Edwardsville, that Madison county will maintain a covered 1.0 multiplier, even if the township assessors fail to do their job.

The 24 township assessors, who met Thursday afternoon with Landolt and Eugene Bergbergh, property tax division supervisor, for the Illinois department of revenue, agreed unanimously to the 55% assessment.

Bergbergh told the assessor that if they adhere strictly to the assessment level agreed upon that he was confident the county would retain its 1.0 multiplier.

Three-Year Study
Based on a three-year study of township assessments from 1962 through 1964, the state revenue department found Madison county below the required state average of 50% fair cash value, and Bergbergh noted the county could expect a multiplier of a least 1.0696 if the underassessment continued in 1967.

If the state would apply the multiplier to the entire county, it would mean tax boosts for townships such as Granite City, where assessments are close to the proper level, as well as the lower assessed townships of Chouteau, Nemoethi and Venice.

The study by the state indicated the average for Chouteau, Nemoethi, Venice and Godfrey townships to be 35.45% of the fair cash value.

Bergbergh described to all 24 assessors a copy of the new Illinois property tax law, approved January 1966, and said in making assessments at the state required level of 55%.

The board of review has the power to assign individual township multipliers to raise assessment averages to the agreed level, and has announced a "rough" policy of raising under-assessed townships to assure the multiplier will qualify for a multiplier of 1.0.

'Tree of Lights' Drive Tops Goal
Hundreds of needy Quad-City families found Christmas Day a much happier occasion, thanks to a four-community effort by labor, service groups, business firms, service clubs and individuals.

occasions in public hearings conducted by the Gateway Council that some of the goals set up in the Interstate Air Pollution Study, which is being used primarily as the basis of the control ordinance, cannot be achieved because existing technological processes are insufficient.

They also maintain that the differences of only a few tenths of one percent in abatement standards proposed on the one hand by the Interstate Study, and on the other by industrial interests, would result in many additional millions of dollars to be accomplished.

Industry's complaint, spearheaded by the Industrial Waste Control Council, particularly attacks sulfur dioxide standards and those governing abatement of particulates resulting principally from fuel combustion.

Industry also has protested sulfur requirements of coal used in industrial fuel consumption, maintaining that Air Study limitations would wreck the coal mining industry, many additional millions of dollars to be accomplished.

In the opening game of the O'Fallon cage tournament, Venice Red Devils won over Red Bud, 74-46.

Slated against Lockport, the Granite City Warriors open play at the Pontiac tournament tomorrow at 1 p.m.

Red Devils
Last year, Venice won the O'Fallon tournament by beating Litchfield who did not enter the tournament this year, 53-36. During that tournament, former Red Devil, Percy Dillon, starred, but in the Litchfield game returning Red Devil Rich Essington topped Dillon in scoring by three points. Dillon tallied 28 and Essington tallied 31 points. Essington also netted 24 points in play against Red Bud yesterday.

Other returning Red Devils who starred in the O'Fallon tournament were Roger Schaffner, Greg Puente and Robert Macintosh.

Venice will play Marissa at 5 p.m. today in their next step towards defending their championship rating.

Madison Trojans
Winning over Okawville the Trojans were slated to play again at 1 p.m. today. Partial or final results of the Okawville-Madison game were not available at press time.

The undefeated Trojans, who finished third in the championship title race last season, edged out Brees in their final game, 77-72, for the third place slot. Losing to Highland who did not enter the Mater Dei tournament

this year, Madison lost their chance last year for the semifinals.

Returning Trojans who starred in the Mater Dei tournament last year include Gary Lusk, Neal Podoba, Steve Geroff and Ron Burt. Lusk averaged 13 points per game at the tournament, Burt, who ran into foul problems in woods 8-7-3.

Warrior returnees who starred in last year's tournament are Terry Moore, Jim Hentzel, Jim Stuart and Bob Malotki.

Two undefeated teams, Springfield (6-0) and Waukegan (6-0) are picked as favorites in the year, the Warriors did, however, go on to win the Consolation City, Lincoln-Way and LaSalle championship. During the tour-

namment, the Warriors were just 10 points short of matching the most points scored by a team at the Pontiac tournament. Pekin hit for 324 in four games in 1965.

The Warriors also helped set a record for the most total points scored in a game by both teams at the tournament, Burt, when they won over Peoria Rich-

mond, 82-73.

Warriors Edged 65-60 In Tilt With Edwardsville

Tiger Tom Dezort's fine 24 point coupled with the 11 rebounds by Gary Spiller headed the cast as the Edwardsville Tigers defeated the sluggish Warriors 65-60 in a game played on the home court Thursday evening.

Act I began with the villains Gary Spiller and Tom Dezort foiling the GC attack with a number of steals combined with three consecutive Spiller buckets for an early 14-6 lead. The Granite City Warriors hit a meager total of eight first-period points with Terry Moore, doubleteamed by his opponents failing to score.

As the curtain raises on Act II, the Warriors rose to the occasion slashing the Tiger lead to five points at 28-23 with two minutes remaining. The Edwardsville edge was 30-27 at halftime, with the hero of the hour, Jim Hentzel, scoring 8 during the period. In the third act the Warriors regained their momentum outscoring, outplaying and rebounding their adversary 14-13. After a mediocre first half yield of seven points Warriors Moore augmented his total eight points in the quarter and added six rebounds.

Warrior defensive tactics changed from the usual full court press to the "modified press," meeting their opponents at half court. In breaking the press, the Tigers were able to move Dezort underneath and this procedure worked. Dezort hitting three buckets. After the Warriors closed the gap to one Dezort baskets put the icing on the cake, 65-57.

Warrior scorers were Moore 23, Hentzel 16, Stuart 11, Simpson six, Malotki and Van Buskirk added two each.

Tigers who tallied were Brunnell 23, Hentzel 16, Stuart 11, Simpson six, Malotki and Van Buskirk added two each.

The Red Devils will play Marissa at 5 p.m. today. If they defeat Marissa, they would play the Waterloo-Gibault winner Wednesday at 8 p.m.

Another win would place the Red Devils in the championship playoffs. Thursday, if the Red Devils lose to Marissa today, they will drop out of the tournament.

Students Making Good Use of Illinois Scholarship Program

The Illinois State Scholarship Commission program—for which the next examinations are to be taken by present high school juniors May 13 or August 5, 1967—is being put to excellent use. The 4468 freshmen enrolled in the regular program in 1965-66 averaged 3.91 or close to a "B" in all their grades.

Only 6% of the September 1965 freshmen had grade records which did not meet the good academic standing required for a sophomore award this fall. Both the grade average and eligibility percentage are new records.

The commission assists Illinois residents with college expenses in three ways—the regular scholarship program, college-initiated upperclass award program, which consists of grants and a guaranteed loan program.

For the current year of 1966-67, awards totaling \$3,800,000 were made to 8950 upperclass students (7100 scholarship and 1850 grants) at 91 of the 96 approved Illinois colleges. Educational loans of \$6,700,000 through any of 550 Illinois financial institutions have been guaranteed to 6000 students from over 750 high schools since the academic year.

Scholarship winners are selected initially by means of test scores and high school records. Competition is keen, averaging over 30,000 students a year in recent years. Awards range up to \$1000, not to exceed tuition and fees. From the 37,000 in the tenth annual class of potential freshman winners, who took tests in 1966, about 11,000 students from over 750 high schools have met the academic qualifications and are being considered for scholarships, honorary awards and certificates of merit.

There is much to be proud of in the record of the state scholarship program and of the many thousands of students who have continued their education with its assistance.

Judging by population trends and rising college costs, the scholarships will need to be expanded even more rapidly in future years.

New Nuclear Accelerator a Mammoth Asset for Midwest

"We've reversed the midwest 'brain drain' in one fell swoop. It's a great Christmas present for Illinois."

This comment by Gene H. Graves, Illinois Business and Economic Development director, reflects the jubilation felt by Gov. Otto Kerner and others over the selection of a presentation in the state of a \$375 million atom smasher.

There had been intense national competition for the new federal facility, and Illinois officials devoted much thought and effort in presenting the case for selection of the site.

The 200-billion-electron-volt proton accelerator, to be constructed in about five years on a tract 30 miles west of Chicago, is intended to unify the Midwest.

Mergers Recommended to Reduce Number of Illinois Counties to 22, Make Government More Responsive, Able to Meet Modern Conditions

(Sixth of a Series)
(Press-Record editorial analysis)
Governmental reorganization needs include consolidation of counties, in the opinion of the Research and Policy Division of the Committee for Economic Development.

In Illinois, it is recommended by the national group that the present 102 counties be reduced to approximately 22. Eighty of the present counties would be eliminated through mergers.

The Committee for Economic Development is composed of representatives of business, labor, education, and other groups. It is a non-partisan, non-political.

Supported by voluntary contributions from business and industry, the CED has funds adequate to maintain an experienced staff and pay for scholarly research. It describes itself as "non-partisan and non-political."

New Circumstances Cited
County consolidations are viewed as essential to keep pace with the transition from local government from the horseback and horse-and-buggy days to the new era of mass migration, transportation and lighting speed communication.

Based on a study of the CED figures show Illinois has more local government units than the national average. It has 642, including the 102 counties.

A related finding by the CED is that more should be done to permit establishment of functional units in metropolitan areas covering one state or more than one state.

West Granite Monks Get Call From Son in Japan

WEST GRANITE, ILL.
The Christmas holidays were brightened considerably last week for Mr. and Mrs. Ralph Monken, 2301 Lee avenue, when they received a transoceanic phone call from their son, Private First Class George N. Monken, U.S. Army, who is based in Japan.

Received here at 8:50 p.m. Thursday, the call was being made by Pic Monken at 11:50 a.m. on Friday, from a telephone installation at Choitei, in Northern Japan. The soldier said the time he called it was ten degrees below zero, with snow thick on the ground for nearly a month.

Monken told his parents he had received numerous cards and letters from friends now in the service and stationed in Germany and Japan and the U.S. who had seen his name and address in a Press-Record "Yule Mail" column. He commented, "It sure was good idea and plan me in touch with friends I'd lost track of since joining the army."

A 1961 graduate of Granite City high school, Monken, 23, was married in March to the former Vicki Schuck of Kokomo, Ind., who is planning to join her husband within the next few months in Japan. The service-Japaner and his wife, who has been stationed with the Army Security Division at Choitei since September, he is expected to remain in Japan about three years, his parents said.

Chemical Workers 50 Elect Hamilton, Phelps

Charles Hamilton was elected business agent of International Chemical Workers Local 50 of the blast furnace department of American Steel Co. in a election conducted Thursday at the plant.

Hamilton succeeds his brother, Richard, who had resigned, and won the post over Frank Ronco. More than 700 of the union's 900 members took part in the election, naming officers to one-year terms.

A new president is Edwin Phelps, who succeeds Lawrence Bennett, and the vice-president is Carl Jackson, who was re-elected.

Named as financial secretary was Clifton Patterson, who succeeds John Ham, and Charles Dew was re-elected recording secretary.

Thomas Kowalski won over Robert Mann for the office of treasurer, and Jerry Morgan and Jerry Morgan won over Leonard Weeks for the post of guide.

4 Fire Alarms in GC Saturday in 5 Hours

All three Granite City fire stations crews answered alarms early Saturday morning, with four reported between 1:55 a.m. and 6:55 a.m. All were of a minor nature.

The first alarm was at the frame home of Floyd Gray, 2614 Jorden avenue, where an over-heated furnace caused a fire. At 2:15 a.m., the Nameki road station crew was dispatched to the Richard Hutchings home, 2322 Cleveland blvd., where a blower motor on the furnace burned out.

At 7 a.m., the downtown crew went to the home of Lester McCall, 2256 Lee avenue, where smoke was backing up in the kitchen, and at 6:55 a.m. the West Granite crew was called to extinguish a blaze in a truck on 19th street at the Union Starch & Refining Co. plant.

At 7:15 a.m., the station at St. Louis firm's produce truck had set fire to the truck bed. No loss was reported.

Lost Girls in Carlinville
Funeral services were held Saturday at Carlinville for Mrs. Robert Antelope, 82 of Carlinville, mother of Mrs. Faye Buford of Granite City. Burial was in Shipman cemetery.

Two Hit-Run Accidents
Two hit-run accidents were reported Saturday night to Granite City police. William Morford, 2325 Center street, said his auto was hit while parked in the 2000 block of 19th street.

Robert Squires, 2323 Edwards street, had as Christmas guests Mr. and Mrs. Frank Pfeiffer, Mr. and Mrs. Mary, Mrs. Stuart Squires and children, Lynn and Paula, Mr. and Mrs. Padgett, Miss Karen Felker, Dennis Hecht, Mr. and Mrs. Robert Pottito and Mr. and Mrs. Jerry Pottito and children, Mark, Robert, Kirk and Miss Sandra Pottito.

High School Enrollment
A senior high school with a graduating class of fewer than 100 is too small to offer a sufficient diversified curriculum, it is contended. Because of dropouts, a total high school enrollment of at least 50,000 is regarded as desirable.

More than 80% of independent school systems outside U.S. metropolitan areas have fewer than 1500 students.

Illinois in 1962 had 1540 school districts. There are 15 in Madison county and three in the Quad-Cities.

In discussing metropolitan areas, the CED said, "The bewildering multiplicity of small, piecemeal, duplicative, overlapping jurisdictions cannot cope with the staggering difficulties encountered in managing modern urban affairs."

The CED said that "the fiscal effects of duplicative suburban separatism create great difficulties in provision of costly central city services, thus benefiting the whole urbanized area."

If local governments are to function effectively in metropolitan areas, they must be of sufficient size and authority to plan, administer and provide significant services.

'Gateway to Careers' Event Offered Thursday

A "Gateway to Careers" program, a special "supermarket" of job opportunities, will be held for college students in the area from 9 a.m. to 5 p.m. Thursday in the exhibit hall of the Chase Park Plaza hotel, St. Louis.

Sixty-one of the area's major firms will have exhibit booths in operation, and company representatives will be on hand to acquaint students with more than 3000 career opportunities available in the metropolitan area.

The positions represent millions of dollars in starting salaries. Students will be able to register free at the door. The program is designed especially to meet the particular interests of students who currently are exploring the job market, and those who will be seeking jobs in the near future.

The students will have a chance to compare job opportunities and to see how their studies and career goals fit the specific positions at each company. Company literature describing employment opportunities and required qualifications will be available.

Joe E. Dowell, chairman of the Gateway to Careers committee, pointed out that opportunities this year are expected to exceed those at last year's program where nearly 2000 students participated in more than 14,000 job interviews with representatives of 40 local firms.

He noted that everyone benefits when a new college graduate takes a job in his home community.

Leaves Curb, Collides

An auto driven by John E. DeHart, 1367 Edwardsville road, pulled away from the curb at 1511 Niedringhaus avenue and struck the right side of another driven by Pete Kohn, 2317 Ponton road, at 12:15 p.m. Thursday.

DeHart, 36, of Granite City, was uninjured. Kohn, 35, of Granite City, was injured and taken to St. Joseph's Hospital, Highland, Ill., for treatment.

Rev. Baumann, pastor of St. Peter United Church of Christ and a club member, spoke to the group on the topic, "Rescue Christmas," which dealt with the commercial aspects of the holiday season. Carol singing was led by Milton Allen.

Warren Simpkins, Granite City high school vocal music supervisor, directed a program of holiday songs and carols presented by 16 local students who were selected for their ability to represent the entire department. The presentation was highlighted with individual performances by soloists, Dennis Myrtle and Mike Farrell. Janet Young served as accompanist and also played a solo number.

Wilbert Tribes, Optimist president, expressed the club's appreciation for community support in the Christmas Tree sales lot, operated jointly each year by the two local service groups. Also cited were the efforts of Wendel McVoy as project chairman and club members who assisted at the sales lot, where business was curtailed Tuesday due to the limited number of trees remaining.

A preview of coming events in the Quad-Cities, together with a general business forecast, will be presented at this Thursday's meeting by Howard Kaseberg, president of the Tri-Cities Chamber of Commerce.

State Bar to Probe Bartylak's Conduct in Estate Cases

The Illinois State Bar Association plans to investigate the activities and conduct of Joseph R. Bartylak who recently resigned as state's attorney effective Jan. 1.

The investigation will center on Bartylak's handling of estate cases as a private attorney. He is involved in complaints about three estate cases filed in the probate division of circuit court.

Bartylak, a patient in the Reardon division of Barnes Hospital, St. Louis, since Oct. 1, is under order to show cause why he should not be held in contempt of court when he is released from the hospital.

The order was issued by Associate Judge I. H. Streeter for failure to account for \$500 in the estate of a Collinsville man by Nov. 23. Restriction was made in his behalf several days later.

Judge Streeter last week ordered him to report on the disposition of funds of a guardianship established by Jan. 5. A third case called to the attention of the probate division involves the estates of the late William Wille, a Collinsville lawyer, and his wife, which Bartylak was retained to represent.

The state bar has employed a special investigator, a Springfield attorney and former FBI agent, to investigate anything in reference to his conduct "which will tend to defeat the administration of justice or bring the legal profession and the courts into disrepute."

Rule Plant Cannot Ban 'Union Talk'

A National Labor Relations Board examiner ruled Saturday in Washington that the Young Metal Products Co., Granite City, violated federal regulations in posting a bulletin May 25 warning that employees found "talking about unions" would be disciplined. The case was heard Aug. 23 in St. Louis.

The ruling is subject to review by the NLRB. The board has been asked by Examiner Owsley Vose to order the company to disavow the bulletin, which was removed in June, and to post notices pledging no further interference with workers discussing union matters.

Young Metal Products makes corrugated metal pipe for the Defense Department and ships 85% of it directly to Vietnam by air. "During an alleged production slump, it said the ban on union talk was necessary to the war effort."

Vose linked the issue to an NLRB order in March requiring reinstatement of two men discharged for failing to join Boiler-makers Union Local 1012 and reimbursement of union fees to all employees. Asserting that a contract between the plant and local had been signed prematurely, the NLRB ordered it nullified but Vose says neither the union nor company has complied.
